Operational Overview

The Rose Hill Police Department serves the public 24/7 with law enforcement services. Major functions include, but are not limited to the following:

- Criminal Investigations
- Traffic Accident Investigations
- Traffic Enforcement
- Emergency Preparedness, Planning and Response
- First Response (911) for Police, Medical and Fire calls
- Crime Prevention & Community Education
- Security for USD 394 Schools and Events as well as Municipal Court and City Council Meetings
- Animal Control

Criminal Investigations:

A full-time Detective serves the community and department through a variety of responsibilities. The responsibilities include, but are not limited to investigating felony crimes, child victim crimes, process crime scenes, fulfilling the duties and responsibilities of evidence custodian and overseeing community events and programs.

Accident Investigations:

Patrol officers respond to, investigate and document traffic accidents within the city limits. The data is submitted electronically to the State of Kansas as required by statute. Public reports concerning the accidents are disseminated to insurance companies or other interested parties upon request for a fee.

Traffic Enforcement:

Traffic monitoring and enforcement of traffic laws is primarily designed to increase traffic safety. In accordance with that philosophy, officers structure enforcement times, locations and offenses toward that goal. Although the number of fine generating citations written by Rose Hill officers is less than other comparable agencies, our traffic safety record is excellent. The number of state reportable accidents is low considering traffic counts place approximately 10,000 vehicles a day on Rose Hill Road.

The Rose Hill Police Department conducted a traffic safety project on School Street around the schools. We had received complaints and observed incidents of traffic and pedestrian safety. We met with USD 394 and City Staff to analyze the issue and put a plan in place. As a result, new signage as well as striping was added to this school street corridor. This along with education and other measures have improved the conditions at school when school starts and lets out per day they are in session.

Emergency Preparedness, Planning and Response:

Verbal agreements with four (4) church facilities provide storm shelters for community members in the event of a storm. Officers are tasked with unlocking the facilities upon receipt of a severe weather watch and locking the facilities back when it clears. The locations are:

- Rose Hill Christian Church, 314 N. Rose Hill Road. (Main door)
- Rose Hill First Baptist Church, 1206 N. Rose Hill Road. (Main door)
- Rose Hill Bible Church, Rosewood & Main. (Main door)
- United Methodist Day Care, Main & Showalter. (South door)

As storms approach, officers engage in spotting activities and coordinate our efforts with Fire District #3 and Butler County Emergency Management.

The Police Department has updated the city's disaster manual which will be finalized and presented in 2020. All police department and public works employees have received the federally required NIMS training.

Crime Prevention and Community Education:

Although the Investigations Detective has the additional responsibility of overseeing community services, all officers are responsible for participating in community events and using community policing concepts and strategies. Some examples of events the department has organized or been involved with are:

- National Night Out
- Hunter's Education Course
- Bicycle Safety Classes
- USD 394 Classroom talks on various topics
- Drug Take Back Program
- Tours of the Police Department
- Crime Prevention and Safety Talks
- Trunk or Treat
- Movie in the Park
- Free Gun Locks

Security for USD 394 events as well as Municipal Court:

In 2019, Police and Reserve Officers provided security and traffic control for USD 394 sporting events such as football, basketball and other events as requested, such as graduation. In addition to the security provided by reserves, a full-time certified School Resource Officer was assigned to the schools when classes are in session.

For the 2019-2020 School year, USD 394 decided to start their own police department. We began the school year with a City Police Officer assigned to the school as an SRO until the school hired their own Police Chief/SRO. Since then, they handle their own school calls unless RHPD is requested on Felonies or as back up on critical incidents. USD 394 also now handles their own security for school events.

Animal Control:

The department is responsible for animal control and the enforcement of the city code relating to animals. Animals that are picked up are taken to the Rose Hill Veterinary Clinic rather than housed at a city owned and maintained kennel.

Other Items:

The department is currently working on the RHPD Policies and Procedures Manual that is continually reviewed and updated. Many of the policies have been converted to a new format that provides better access to all members of the department.

All officers are compliant with statutory requirements such as maintaining required training hours, firearms qualification, biased based policing training and reporting.

The use of the Criminal Justice Information System (CJIS) by the department requires certain policies relating to officer training, physical and remote access security as well as yearly criminal background investigations be conducted and complied with. The department is audited by the Kansas Highway Patrol for compliance. To date, we have successfully passed every audit.

The department transmits Kansas Incident Based Reporting and Arrest data to the Kansas Bureau of Investigation electronically through our records management system. All agencies are required to submit data per state law. Although our system is somewhat "bulky" with regards to transmission, we are compliant but are currently examining ways for a more efficient process.

In addition to transmitting criminal reporting data, we also collect and transmit fingerprints electronically. This capability not only provides almost real time confirmation of a suspect's identity (if their prints are already in the FBI system), but it allows us to meet the fingerprint requirements for background checks

on officers per CJIS requirements. As a service to the public, we use this system to take fingerprints for employment purposes for a small fee.

Municipal Court:

Although Municipal Court does not fall under the supervision of the Chief of Police, the court clerk as well as the records and reporting functions do.

2018-19 Municipal Court Staff

Judge: Honorable Fred Johnson

Prosecutor: Justen Phelps

Police/Court Clerk: Kristie Metcalf

Notable Cases/Projects 2019

- Case #19-430 (Sibley) – Brandon Buckmaster was stopped for speeding. He was not making sense regarding his possession of the vehicle, a Cadillac Escalade. After officer made a call to Derby PD having them run by the registered owner's home, to their surprise the vehicle had been stolen from their garage as they slept without their knowledge. Buckmaster was arrested for numerous charges.
- School Street Project.
- Officer Lee responding to a past assault at Wesley ER in Derby that led to an investigation that revealed that a husband attempted to choke his wife and drown her and then threatened her with a shot gun.
- Sgt. Conrad was dispatched to suspicious activity call possible burglary to an auto. Call led to a vehicle chase and then a multiple agency man hunt for an individual that ran on foot from 1700 block of Tanglewood to eventually 13000 block of SW 150th. The capture led to three arrested and charged with Several Felony charges including vehicle theft, burglary, possession of stolen property.
- Detective Tharp, investigated an Indecent Liberties with a Child case, involving a USD #394 Employee. The report did not happen at the school, however, it involved children that the person was around on a regular basis that also attended the school. The suspect solicited the child under 14 years old to engage in lewd fondling/touching. The suspect was "grooming" this child for months, offering rewards, allowing the child to do things the parent would not allow and buying gifts. This suspect was terminated from the school district for other reasons but remained in the area where the victim lived. This case was tried, and the suspect was convicted of a level 5 Persons Crime felony, is a life-time registered offender and has since moved out of the city of Rose Hill, away from the victim. This case is significant because during this investigation, others came forward and reported similar events that had happened more than 20 years ago that were not reported, showing a pattern. The victim in this case is thriving and has seemed to do well putting this incident behind them. Through the work of the Multi-Disciplinary Team (members of law enforcement, child advocates, DCF and attorney's) the victim only had to tell his story once and was kept from testifying in court.

Currently we are undergoing training to be able to be tested and hopefully certified in the Fall of 2020. This was originally scheduled for the Spring but had to be moved due to COVID-19.

- The K-9 Team had several deployments at the school when Officer Weekley was the SRO. As well, we deployed over the 2019 summer when working with other officers and running Urlo on car stops. Thus far, nothing was found so the car stops were documented, with PackTrack which allows for documentation without a full case pulled.
