WHEREAS, K.S.A. 12-631a, as amended (the “Act”), provides, in part, that whenever, in the opinion of the governing body of any city in the state of Kansas it shall become necessary to alter, repair or reconstruct any existing sewer which serves two or more sewer districts, where sewer districts may have been created, or which serves a substantial portion of the city, the governing body of such city may provide for the alteration, repair or reconstruction of any such sewer; or if any such sewer, after having been constructed for twenty years or more, is found to be inadequate, and in the opinion of the governing body the inadequacy of such sewer can be corrected at a lesser cost by the construction of another sewer in the same watershed, the governing body of such city may provide for the construction of a supplemental sewer; and

WHEREAS, in order to pay for the construction of sewers pursuant to the Act, the governing body of such city may, if in the opinion of the governing body the cost of such alteration, repair, construction or reconstruction should be borne by the city at large, pay the cost thereof out of the general fund of said city, and if the general fund is insufficient to pay such cost, or if the governing body deems it necessary, such governing body may issue general improvement bonds in the manner provided by law to pay such cost; and

WHEREAS, the governing body of the City of Rose Hill, Kansas (the “City”) hereby finds and determines it to be necessary to authorize and provide for the repair, rehabilitation and/or reconstruction of approximately 1,600 linear feet of existing sewers described as Priority 1 in the sanitary sewer evaluation prepared by the City Engineer and all related improvements appurtenant thereto (the “Project”); and

WHEREAS, the Project reconstructs sewers that serve a substantial portion of the City; and
